

Arnau Solé i Ventura

QA Automation Engineer

arnau.sole@fakemail.dev · +34 612 345 678 · Barcelona, Spain

PROFESSIONAL SUMMARY

QA Automation Engineer with over 5 years of experience designing and executing automated test suites for complex web and mobile applications. Specializes in building robust, maintainable test frameworks from scratch and integrating them seamlessly into CI/CD pipelines to guarantee high-quality releases.

EXPERIENCE

QA Automation Engineer

Nov 2021 – Present

AeroVibe Tech

- Designed and maintained a Python-based PyTest and Selenium automated framework, resulting in a 30% reduction in regression testing time.
- Integrated automated testing jobs into GitLab CI/CD pipelines, ensuring automated verification on every deployment branch.
- Collaborated closely with developers to identify and resolve high-severity issues prior to release cycles.

QA Engineer

Sep 2018 – Oct 2021

Novus Software

- Authored over 200 automated end-to-end test cases and managed manual exploratory testing for a B2B SaaS platform.
- Established weekly testing reports and defect logs to streamline communication between the engineering and QA teams.
- Participated in agile ceremonies, estimating QA efforts and refining user acceptance criteria.

EDUCATION

Bachelor's Degree in Computer Science

2014 – 2018

Universitat de Barcelona
