

Fiona Connolly

Full-Stack Engineer

fiona.connolly@mail-example.net · +353 87 123 4567 · Dublin, Ireland

PROFESSIONAL SUMMARY

Staff Full-Stack Engineer with over 12 years of experience architecting and scaling enterprise-level cloud applications. Proven track record in leading cross-functional engineering teams, designing distributed microservices architectures, and driving technical excellence across organizations.

SKILLS

Java

Spring Boot

React

TypeScript

AWS

Kubernetes

Terraform

PostgreSQL

Redis

CI/CD (Jenkins)

System Architecture

EXPERIENCE

- Staff Engineer**

Mar 2021 – Present

CloudSpire Technologies

 - Architected a highly-scalable SaaS platform using React, Spring Boot, and AWS, handling over 10 million daily API requests with 99.99% uptime.
 - Mentored 15+ senior and mid-level engineers, establishing coding standards and architectural patterns that increased deployment velocity by 40%.
 - Championed the transition to Infrastructure as Code (IaC) using Terraform, reducing cloud provisioning time from days to minutes.
- Lead Full-Stack Developer**

Jun 2016 – Feb 2021

Dublin Fintech Lab

 - Led the technical delivery of a core banking microservices system using Java and React, reducing transactional errors by 25%.
 - Designed and executed a zero-downtime database migration strategy from legacy Oracle DB to PostgreSQL.
- Senior Software Engineer**

Sep 2012 – May 2016

Apex Web Solutions

 - Developed scalable REST APIs and modern web frontends using Angular and Node.js.
 - Integrated third-party payment gateways and identity providers securely.

EDUCATION

- M.Sc. in Computer Science**

2010 – 2012

Trinity College Dublin
- B.Sc. in Computer Science**

2006 – 2010

Trinity College Dublin
