PROFESSIONAL SUMMARY

Senior Data Scientist with 8+ years of experience designing and deploying machine learning models to solve complex business problems. Expert in predictive modeling, natural language processing, and deep learning, with a strong engineering background to bridge the gap between research and production.

EXPERIENCE

Senior Data Scientist

Jan 2022 – Present

AeroAnalytics

- Designed and deployed a predictive maintenance deep learning model using PyTorch, reducing unplanned equipment downtime by 22% for industrial clients.
- Built automated ML pipelines using MLflow and Docker on AWS, accelerating model deployment times from 4 weeks to 2 days.
- Mentored 3 junior data scientists and established best practices for code versioning and model validation.

Data Scientist

Sep 2018 – Dec 2021

BarnaData Solutions

- Developed a customer churn prediction model using Scikit-Learn and PySpark that processed 5M+ active customer profiles weekly, lowering churn by 14%.
- Created interactive dashboards using Tableau and Python to communicate key predictive insights to C-level stakeholders.

Junior Data Analyst

Oct 2015 – Aug 2018

Catalana Tech

- Analyzed web traffic and marketing campaigns, building forecasting models that optimized ad spend by 18%.
- Automated daily data ingestion and cleaning pipelines from various database systems using SQL and Pandas.

EDUCATION

M.Sc. in Data Science

2013 – 2015

Universitat Politècnica de Catalunya (UPC)

B.Sc. in Mathematics

2009 – 2013

Universitat Politècnica de Catalunya (UPC)
