Joan Puigdemont i Roca

Frontend Engineer

PROFESSIONAL SUMMARY

Senior frontend architect with 8 years of experience building complex, accessible web platforms. Expert in micro-frontends, performance optimization, and establishing frontend engineering standards across multi-disciplinary teams.

EXPERIENCE

Senior Frontend Engineer

Mar 2021 – Present

Vistaprint

- Architected a micro-frontend architecture using Webpack Module Federation, allowing three independent product teams to deploy autonomously.
- Improved global website accessibility rating to meet strict WCAG 2.1 AA compliance standards across all primary purchasing funnels.
- Established automated CI/CD pipeline checks with ESLint and Prettier, reducing post-deployment frontend runtime bugs by 40%.

Frontend Developer

Jan 2018 – Feb 2021

Girona Tech Hub

- Developed a high-traffic regional real-estate portal using Next.js, achieving Server-Side Rendering (SSR) load times under 1.5 seconds.
- Collaborated closely with UX/UI designers to build and document an in-house design system of highly reusable React components.

Junior Web Developer

Sep 2015 – Dec 2017

WebGirona Agency

- Built interactive, pixel-perfect client websites using HTML5, CSS3, Sass, and vanilla ES6 JavaScript.
- Integrated REST APIs for third-party billing modules and regional mapping services.

EDUCATION

Bachelor's Degree in Web Development and Design

Sep 2011 – Jun 2015

Universitat de Girona
