

Maximilian Scholz

Platform Engineer

maximilian.scholz@exampleemail.com · +49 89 2314 9811 · Munich, Germany

PROFESSIONAL SUMMARY

Senior Platform Engineer with over ten years of experience optimizing cloud infrastructure and build pipelines. Proven track record of migration from legacy bare-metal servers to Kubernetes-orchestrated AWS environments, reducing deployment times significantly. Passionate about infrastructure-as-code and building highly resilient, scalable developer platforms.

SKILLS

Kubernetes

Terraform

Amazon Web Services (AWS)

Docker

Go

Bash

CI/CD (GitLab, Jenkins)

Prometheus

Grafana

Linux Systems

Helm

EXPERIENCE

Senior Platform Engineer

Jan 2021 – Present

CloudVibe Munich

- Designed and maintained enterprise-grade multi-region Kubernetes clusters on AWS using Terraform, improving platform uptime to 99.99%.
- Automated deployment workflows with GitLab CI/CD, reducing average developer onboarding time from two weeks to three days.
- Implemented decentralized Prometheus and Grafana monitoring, leading to a 40% reduction in MTTR (Mean Time to Resolution).

DevOps Engineer

Mar 2017 – Dec 2020

MunichData Solutions

- Managed scalable containerized environments, migrating over 50 microservices from legacy virtual machines to AWS EKS.
- Authored modular Terraform templates utilized by multiple development squads, standardizing infrastructure provisioning.
- Optimized CI/CD pipelines resulting in a 25% reduction in build and test execution costs.

Systems Administrator

Oct 2013 – Feb 2017

NetInfrastructures GmbH

- Maintained internal Linux server fleet and network infrastructure supporting 150+ corporate employees.
- Developed robust automation bash scripts for overnight system backups and security patch deployment.

EDUCATION

B.Sc. in Informatics

2010 – 2013

Technical University of Munich
