

Roger Vila i Coll

Engineering Manager

roger.vila@fakemail.dev · +34 677 889 900 · Barcelona, Spain

PROFESSIONAL SUMMARY

Engineering Manager with over 10 years of experience leading high-impact software development teams. Accomplished in scaling cross-functional organizations, cultivating high-performance engineering cultures, and delivering cloud architectures while aligning technology with corporate strategies.

EXPERIENCE

Engineering Manager

Jan 2021 – Present

InnoTech Solutions

- Scaled the engineering department from 8 to 25 engineers by establishing a standardized, unbiased technical recruitment funnel.
- Reduced voluntary annual engineering turnover from 15% to 5% by instituting clear, customized career development tracks.
- Spearheaded the migration of a legacy backend monolith into an event-driven AWS microservices ecosystem, decreasing infrastructure costs by 20%.

Technical Lead

Apr 2017 – Dec 2020

CloudScale Europe

- Led a dedicated team of 6 software engineers to build and scale transactional payment APIs handling 100k+ daily operations.
- Partnered with product managers and business stakeholders to translate roadmap visions into actionable technical requirements.
- Advocated for robust software craftsmanship, driving the adoption of comprehensive automated unit and integration testing.

Senior Software Engineer

Oct 2013 – Mar 2017

WebStream Bcn

- Designed backend services using Node.js and MongoDB, boosting platform API response speeds by 40%.
- Automated deployments by architecting multi-stage CI/CD pipelines, decreasing deployment times to production environments.

EDUCATION

Master's Degree in Software Engineering

2011 – 2013

Universitat Pompeu Fabra
